

## Knowledge Mosaic: A+ Customer Service

I was working on Saturday on a complex analysis of companies with dual stock class status that switched to single class status. Knowledge Mosaic customer service was available, and a representative worked with me to develop a search query that met the expectations of the attorney. Furthermore, he provided the filings that discussed the switch. I have never had an unsatisfactory experience when contacting the Knowledge Mosaic customer support team. They are smart, quick, and efficient. I always know that I'll get a quality response from them.
