

Case Study: Arizona College uses Patch Manager to deploy custom software packages

“The manual process was time consuming. [With Patch Manager], we can now accomplish patching in 1/4 of the time and be more effective.”

Challenges

- Complexity in customizing patches and packages for user groups & computer groups.
- Used prior to SolarWinds **Patch Manager**:
 - Manual patching and in-house processes
 - Microsoft WSUS

Use Case

- Patch Manager helps Arizona College manage:
 - 251-1,000 workstations (incl. notebooks), and
 - < 50 servers
- Rolls out over 50 patches per month with Patch Manager.

Results

- Patch Manager helps Arizona College:
 - Test and deploy patches without affecting business/IT productivity, and
 - Save 41-80 hours of patch workload each month

About SolarWinds Patch Manager

SolarWinds delivers powerful, affordable, and easy-to-use IT security tools to help you monitor, patch, and eliminate security threats and vulnerabilities across your network. Get fast and easy compliance reporting for HIPAA, PCI, SOX, ISO, and more.
