

Log & Event Manager Helps a Hospital Comply With The Joint Commission's Request (USA)

A small business healthcare company in the US meets and demonstrates HIPAA compliance with Log & Event Manager, and rates this SIEM software 10/10 because: “After proper setup, system is stable and easy to use.”

Log & Event Manager helped this hospital identify and deal with a security incident when “[The] Joint commission came and asked for the audit trail of disabling a specific user. [Log & Event Manager] LEM was able to produce the full trail to [The Joint Commission's] TJC's request.”
