

Medium Enterprise Banking Company

Introduction

This case study of a medium enterprise banking company is based on a July 2023 survey of CrowdStrike Falcon® Identity Protection customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“Our security program objectives are to modernize the overall security posture and to implement a platform that we can scale.”

Challenges

What were the biggest challenges and use cases that you were facing before implementing the CrowdStrike Falcon Identity Protection solution?

- Keeping up with advanced adversary tactics leveraging valid credentials
- Unable to confidently detect and stop lateral movement
- Unable to demonstrate ransomware readiness to the board

Which vendors did you evaluate before ultimately choosing CrowdStrike?

- SentinelOne
- Rapid7

Use Case

Why did you choose CrowdStrike's identity protection solution over the others?

- Faster time-to-value
- Instant visibility into all accounts (human, service, and privileged) and their security posture
- Ability to reduce cost and operational complexity

Results

The surveyed company achieved the following results with CrowdStrike Falcon® Identity Protection:

- How is CrowdStrike's identity protection solution helping you secure your organization?
 - Continuously assess and maintain AD hygiene
 - Detect and prevent suspicious privileged access activities
 - Detect and stop service account misuse, like interactive logins and lateral movement
 - Stop modern attacks such as ransomware and supply chain threats
- Please rate the following capabilities of CrowdStrike Falcon Identity Protection compared to the competition:
 - Deployment Speed: Better
 - Ease of Use: Equal
 - Time-to-Value: Better
 - Scalability: Significantly Better
 - Integrations: Significantly Better
 - Actionable Insights: Significantly Better
 - Detection Accuracy of Identity Incidents: Significantly Better
 - Threat Hunting: Significantly Better

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Medium Enterprise

Industry:
Banking

About CrowdStrike Falcon® Identity Protection

Unlike point solutions with multiple agents, CrowdStrike Falcon delivers this capability with a single sensor that can be deployed anywhere in the customer environment, vastly simplifying the collection of telemetry across endpoint and identity.
