

THE VIRTUAL EVENT THAT SETS THE BAR: Frost & Sullivan's Executive MindXchange

Frost and Sullivan's VIRTUAL Executive MindXchange stands out because they understand that there is more to a conference than a webinar and sales pitch. They have created a fun, engaging virtual gathering that offers short interactions with other attendees, the ability to do some networking and to learn with interactive sessions. It's not the same as being there, but no virtual event I have attended comes close to what they've created.
