How our organization uses WhatsUp® Gold:

“Currently, I use it to view what’s up and online and to track the top 10 trends on my network.

Would you recommend WhatsUp® Gold?

“Absolutely. This tool has alerted me to broadcast storms and other types of outages AS they are occurring, allowing me to start counter-measures before its too late... and even so, I know I probably haven’t even scratched the surface of what it can do.
