

WONOLO CUSTOMER FACT

What I find most valuable about Wonolo is simply reliability. I am very satisfied with Wonolo and find the quality of workers are better in comparison to previous staffing solutions. Wonolo has helped us bring back the same workers, meet aggressive production goals, and ultimately, streamline staffing solutions to save money and time. We reduced costs associated with sourcing workers (from posting jobs to labor costs) up to 50%, and our staff has seen considerable time-savings normally spent on administrative tasks. Wonolo saves us over 200 hours per week in handling placement processes, which is a massive help in alleviating burden on our team.
