

# Medium Enterprise Professional Services Company

## Introduction

This case study of a medium enterprise professional services company is based on a January 2020 survey of A10 Networks customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

## Challenges

The business challenges that led the profiled company to evaluate and ultimately select A10 Networks:

- Primary reasons for purchasing products from A10 Networks:
  - To consolidate networking equipment
  - To deploy new and/or differentiated services
  - For a new deployment/no previous solution

## Use Case

The key features and functionalities of A10 Networks that the surveyed company uses:

- Owns the following A10 products:
  - Thunder CGN (IPv4 Preservation and IPv6 Migration)
- Uses the following in conjunction with A10 products:
  - DNS servers
  - IPv6 Migration / IPv4 Preservation

## Results

The surveyed company achieved the following results with A10 Networks:

- Accomplished the following using A10 products:
  - Reduced costs for the IT infrastructure
  - Increased network performance
  - Supported regulatory compliance requirements

### Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:  
**Medium Enterprise**

Industry:  
**Professional Services**
