

MediaNews Group, Inc. “Highly Recommend” Thunder ADC

4/5 Stars

Please describe why you selected solutions from A10 Networks (advanced features, lower TCO, etc.) and the value that you have gotten from them (application performance, better security, etc.).

The A10 Thunder ADC units have allowed us to do things that were not possible before. *I highly recommend the product.*

Would you recommend A10 Networks Thunder Series, and if so, why?

Use of the Aflex rules allows us to redirect requests and without having to use the web servers, which **reduces overhead**.

Also, because of the Thunder ADC’s load balance capabilities, we can move traffic between servers to help with maintenance windows, too. That **lowers OpEx**.
