# Green House Data Praises A10's Support

★ ★ ★ ★ ☆

## 4/5 Stars

Please describe why you selected solutions from A10 Networks (advanced features, lower TCO, etc.) and the value that you have gotten from them (application performance, better security, etc.).

" Every time I talk to an engineer, a salesperson or technical support engineers, they are **always** on point with the current threats and issues. **A10 provides fast response times**, and the availability to have an engineer on board during major migrations or work that could be service-impacting, is the major reason why we stay with A10 Networks.

Would you recommend A10 Networks Thunder Series, and if so, why?

" We recommend A10's Thunder Series due to its **ease of configuration**, and its ability for troubleshooting and monitoring.
