# Smarsh Inc. Says A10 Technology Better Than F5

★★★★☆

4/5 Stars

Please describe why you selected solutions from A10 Networks (advanced features, lower TCO, etc.) and the value that you have gotten from them (application performance, better security, etc.).

> " We have F5, Riverbed/Brocade/Zeus, and the A10s. **We prefer the A10s.**

Would you recommend A10 Networks Thunder Series, and if so, why?

> " A10 has a much more familiar command-line interface (CLI) than F5, a clearer syntax, and a better config hierarchy.
>
> Being familiar with Cisco-like commands and structure make these **easy to deploy** rapidly.
