# "Extensive Features." "Fantastic Product." "100% Satisfied."

5/5 Stars

Please describe why you selected solutions from A10 Networks (advanced features, lower TCO, etc.) and the value that you have gotten from them (application performance, better security, etc.).

> " We looked at a number of different solutions and chose A10 because of the *extensive features available at an extremely competitive price point*. Our experience with A10 has been consistent with their reputation. We have been *100% satisfied* with the product. They deliver on what they promise. We also worked with their engineering team to use the A10's to overcome a secure LDAP issue that we had no other solution for.

Would you recommend A10 Networks Thunder Series, and if so, why?

> " The A10 proved to be the perfect answer to provide the secure solution we were looking for at no additional cost. *Fantastic product*. I cannot think of a single outage or a single issue we have had with the A10 platform. I would have to give it a *superior rating across the board for reliability and performance*.
