

## Spring ISD Reports 200% Increase in Throughput

Please describe why you selected solutions from A10 Networks (advanced features, lower TCO, etc.) and the value that you have realized.

“ We selected A10 for cost savings to replace an old outdated system that was overtaxed. A10, once configured properly, has done a *great job of load balancing our operating applications.*”

Would you recommend A10 Networks Thunder Series, and if so, why?

“ Throughput capabilities within our system have *increased 200%.*”
