# Energy Company Improves CGN Performance

★★★★★

5/5 Stars

Please describe why you selected solutions from A10 Networks (advanced features, lower TCO, etc.) and the value that you have gotten from them (application performance, better security, etc.).

" We were able to replace three lesser firewalls with two A10 Thunder CGN units, both of which were deployed in a redundant manner.

Would you recommend A10 Networks Thunder Series, and if so, why?

" The A10 Thunder units **significantly improved our overall CGN performance**. Plus, due to the higher capacity links, we were able to balance traffic concurrently yet still operate in the event of an unexpected failure.
