

Orlando Regional Healthcare System

Introduction

This case study of Orlando Regional Healthcare System is based on a June 2016 survey of AvePoint's DocAve Software customers by TechValidate, a 3rd-party research service.

“We chose DocAve for our migration over the competition because of its ease of use, price, and support.”

Challenges

- The business challenges that led the profiled company to evaluate and ultimately select AvePoint's DocAve Software:
 - Experiencing a lack of a direct migration path from the source to the destination
 - Unable to preserve all metadata – including security settings, attributes, and properties – with full fidelity upon migration
 - Unable to migrate workflows
- Chose AvePoint over:
 - Metalogix
 - Sharegate
 - Service provider
- Chose AvePoint over the competition because of:
 - Enterprise scalability to handle large and complex migrations
 - Integrated technologies/platform
 - Support and services

Use Case

- Systems migrated from:
 - SharePoint 2007
 - SharePoint 2003
- System migrated to:
 - SharePoint 2010

Results

- Rated AvePoint's features when compared to the competition:
 - Performance: best in class
 - Ease of use: significantly better
 - Reliability: best in class
 - Scalability: best in class
 - Fidelity & data transformation: significantly better
- The surveyed company achieved the following results with AvePoint's DocAve Software:
 - Migrated 300 GB – 1 TB of data using DocAve
 - Completed their migration in less than one month with DocAve
 - Was able to migrate greater than 50% faster with DocAve
