

# Global 500 Energy & Utilities Company

## Introduction

This case study of a Global 500 energy & utilities company is based on a February 2020 survey of BlazeMeter customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“Test creation and maintenance takes too much time.”

## Challenges

The business challenges that led the profiled company to evaluate and ultimately select BlazeMeter:

- Considering or moved off LoadRunner due to:
  - Complex cost models
  - Poor integration with existing tools
- Have the following issues holding them back when using LoadRunner:
  - Being unable to test using existing open-source tools
  - Difficulty setting up and using
  - Manually creating/maintaining multiple scripts

## Use Case

The key features and functionalities of BlazeMeter that the surveyed company uses:

- Said they are currently using LoadRunner.

## Results

The surveyed company achieved the following results with BlazeMeter:

- Were able to set up and start testing with BlazeMeter in less than 1 day.

### Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:  
**Global 500**

Industry:  
**Energy & Utilities**
