

How our organization uses BlueJeans by Verizon:

BlueJeans has been an effective solution for staying connected across multiple states and time zones. Everyone in our main office is remote, and BlueJeans has helped us stay connected daily. It has also proved to be a comprehensive solution for larger meeting when we pull in the contract employees for updates and briefings.

Would you recommend BlueJeans by Verizon?

I would recommend BlueJeans because it a cost-effective and comprehensive solution for telework. BlueJeans works hard to stay updated and ahead of the game when it comes to features, quality, and accessibility.
