How our organization uses BlueJeans by Verizon:

We shifted from Teams to BlueJeans and attendees immediately noticed the higher quality audio and easy to use apps (desktop & mobile). It keeps the team more effective with the meeting snapshots & highlights feature.

Would you recommend BlueJeans by Verizon?

I would recommend BlueJeans if you are interested in a higher quality voice, easier to use application, and feature rich customizations not available elsewhere at all (or if they do a large scale Enterprise license is required).
