

Prior to having the BlueJeans Dolby phones into our conference rooms, people were not using the conferencing abilities of our conference rooms. Instead they were just using our older equipment to “dial out” to a single user. This limited the ability to meet with many people. The only exception to this was when we would have help-desk assist with setting up the meetings. Now, our room system adoption has increased significantly. We are very satisfied with our BlueJeans Rooms with Dolby hardware.
