

A CEO at a small business professional services company would be very likely to recommend BlueJeans Basic for this reason:

It's a superb service for small businesses and independent consultants/freelancers. The platform is simpler and more effective than Zoom, and provides good functionality. The Basic platform provides sufficient functionality for everyday use, with the knowledge that – for larger events or webinars, one can upgrade in the future as needs grow.

It's nice to have an organization that looks after its future customers and is not just using this as a “hostage to fortune” for the future with a fully functioning free service for limited (but practical) needs.
