

With the calendar displayed on the Dolby hardware it is much easier and quicker for our employees to join meetings. There's no need to remember a meeting ID or look for the correct meeting ID right when the meeting is supposed to start, one touch to join! Our employees love the hardware and the BlueJeans service, and are using it across the organization and with external partners on a daily basis. We now conduct around 1,700 BlueJeans meetings per month.
