

A Marketing Professional at a large enterprise retail company would be very likely to recommend BlueJeans Events for this reason:

Whilst the product itself has been great, it's truly the BlueJeans team I worked with that makes me recommend it to others.

Specifically our CSM! He is truly one of the best I've worked with in my entire career, as he is accessible – especially in times of urgent need, always willing to help us find solutions, is transparent with expectations and timelines, goes above and beyond to ensure our satisfaction, and above all, is kind and an absolute pleasure to work with at all times!
