

# Case Study: Reliance Industries Limited

## Introduction

This case study of Reliance Jio Infocomm Limited is based on a September 2014 survey of CA Technologies API Management customers by TechValidate, a 3rd-party research service.

“The CA API Management Suite is helping in engaging app developers on a self serve basis.”

## Challenges

- The following types of mobile apps are top priorities:
  - Business line
- controlling access across app types is their biggest mobile challenge.

## Use Case

- Supports >1 million mobile customers.
- Supports >10k mobile employees.
- The API gateway helped support their mobile initiatives by:
  - Connected data with mobile apps
  - Enabled mobile app developers
  - Secured apps while optimizing user experience
  - Increased mobile app adoption
  - Secured the app to the API

## Results

- Implementation of the CA API Gateway resulted in increased revenue and/or productivity.
- improved their ability to manage their developers' access to approved APIs with their implementation of the CA API Developer Portal.
