

Case Study: S&P 500 Transportation Services Company

Introduction

This case study of a S&P 500 transportation services company is based on a September 2014 survey of CA Technologies API Management customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“The CA API Gateway secured our API.”

Challenges

- The following types of mobile apps are top priorities:
 - Sales
 - Travel
- enabling mobile developers is their biggest mobile challenge.

Use Case

- Supports 100k-500k mobile customers.
- Supports <2k mobile employees.
- The API gateway helped support their mobile initiatives by:
 - Secured the app to the API

Results

- improved their ability to manage their developers' access to approved APIs with their implementation of the CA API Developer Portal.

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
S&P 500

Industry:
Transportation Services
