

Case Study: Medium Enterprise Computer Software Company

Introduction

This case study of a medium enterprise computer software company is based on a September 2014 survey of CA Technologies API Management customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“The CA API Gateway gave us off-the-shelf support for OAuth2.”

Challenges

- The following types of mobile apps are top priorities:
 - Content Management
- controlling access across app types is their biggest mobile challenge.

Use Case

- Supports 100k-500k mobile customers.
- Supports >10k mobile employees.
- The API gateway helped support their mobile initiatives by:
 - Secured the app to the API

Results

- Implementation of the CA API Gateway resulted in increased revenue and/or productivity.

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Medium Enterprise

Industry:
Computer Software
