

Case Study: Large Enterprise Computer Services Company

Introduction

This case study of a large enterprise computer services company is based on a September 2014 survey of CA Technologies API Management customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“By playing a crucial role in security the CA API Gateway ensures our governance and security models are aligned.”

Challenges

- The following types of mobile apps are top priorities:
 - Healthcare
- securing the entire mobile channel is their biggest mobile challenge.

Use Case

- Supports >1 million mobile customers.
- Supports >10k mobile employees.
- The API gateway helped support their mobile initiatives by:
 - Secured apps while optimizing user experience
 - Secured the app to the API

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Large Enterprise

Industry:
Computer Services
