

10 out of 10: “Calabrio Takes Great Pride In Supporting Their Products.”

5/5 Stars

How our organization uses Calabrio ONE:

“ The product works as advertised and the culture of the company was one reason we choose Calabrio. The management team understands the Contact Center business and will do whatever it takes to the meet the customer’s needs. Outstanding company and product.

Would you recommend Calabrio ONE?

“ Yes, due to the product and after sales support. So many times in this business I see companies sell a product at the highest level, then the after sales support drops off tremendously. We saw just the opposite. Calabrio takes great pride in supporting their products.
