

C3 Attendee Testimonial

“ Aside from the ongoing technological innovations and new applications happening at Calabrio, I am most impressed by the people who make Calabrio such a unique and dynamic organization. The professionalism, passion, and competence of Calabrio’s employees are top notch. Being a Calabrio customer really does feel like being an extended member of the team. You can tell that Calabrio makes their employees feel valued, empowered, and engaged, which shines through at the customer level as well! The team did an amazing job of putting all of the logistics and events together to create a very rich and memorable customer conference experience!
