

Celigo CAM Impact

“ Improved working capital through the CAM software – faster cash applications, improved accuracy of customer statements, and more timely AR reporting.

Reduced time spent on bill payment processes – no more signing checks because we send our check files via Celigo to the bank; ACH vendor payments reducing the amount of checks; positive pay files sent automatically via Celigo.

More accurate data on our internal software platform (AdBridge) by building a custom integration to pass data from NetSuite to AdBridge.
