

Medium Enterprise Environmental Services & Equipment Company

Introduction

This case study of a medium enterprise environmental services & equipment company is based on a June 2018 survey of Cisco Email Security customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“Deploying Advanced Malware Protection (AMP) with Cisco Email Security has helped my organization protect against stealthy malware and remediate it faster.”

“Cisco Email Security reduced spam by 60% and detected 20% more threats.”

“Cisco Email Security adds another level of security to our overall posture.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Cisco Email Security:

- Chose Cisco Email Security to protect their Office 365 email because Cisco has:
 - Stronger protection from advanced email threats (business email compromise (BEC), advanced malware and/or phishing)
- Protects sensitive information in outgoing emails with:
 - Microsoft Office 365 built-in tools
- Evaluated the following vendors prior to choosing Cisco Email Security:
 - Trend Micro

Use Case

The key features and functionalities of Cisco Email Security that the surveyed company uses:

- Bought Advanced Malware Protection (AMP) and Cisco Email Security at the same time.
- Using the following Cisco products in addition to Cisco Email Security:
 - AMP for Endpoints or AMP on another product
 - AnyConnect
 - Identity Services Engine (ISE)
 - Next Generation Firewall (NGFW)
 - Stealthwatch
 - Web Security Appliance (WSA)

Results

The surveyed company achieved the following results with Cisco Email Security:

- Achieved the following with Cisco Email Security:
 - Protected users from threats in incoming email to prevent breaches
 - Contained the impact of threats due to faster detection
 - Remediated stealthy malware faster
- Reduced their time to detection of threats by more than 24 hours after using Cisco Email Security.

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Medium Enterprise

Industry:
Environmental Services & Equipment

About Cisco Email Security

Defend against ransomware, business email compromise, spoofing, phishing, and spam while protecting sensitive data with data loss prevention (DLP) and encryption.
