

Educational Institution

Introduction

This case study of a educational institution is based on a February 2018 survey of Cisco Email Security customers by TechValidate, a 3rd-party research service. The profiled organization asked to have their name blinded to protect their confidentiality.

Challenges

The business challenges that led the profiled organization to evaluate and ultimately select Cisco Email Security:

- Reason for purchasing Cisco Email Security:
 - To protect against advanced threats (ransomware, business email compromise (BEC) and phishing)
- Purchased Cisco Email Security over the following competitive solution:
 - Trend Micro

Use Case

The key features and functionalities of Cisco Email Security that the surveyed organization uses:

- Currently deploying Cisco Email Security on-premise.

Results

The surveyed organization achieved the following results with Cisco Email Security:

- Is very satisfied with their purchase of Cisco Email Security.

Organization Profile

The organization featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.
