

Medium Enterprise Consumer Services Company

Introduction

This case study of a medium enterprise consumer services company is based on an April 2017 survey of Cisco Identity Services Engine customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“We have a more secure environment, due to the enforcement of policies and requirements such as PCI audits. Wireless access is more effective and troubleshooting is more simple.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Cisco Identity Services Engine:

- Purchased Cisco ISE for the following reasons:
 - Preference and trust in Cisco Systems, Inc.
 - Integration with other Cisco products and technologies
 - Range of capabilities
 - Post purchase services and support
- The following IT trends are driving the need for Cisco ISE:
 - Secure Network Access
 - IoT
 - Mobility

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Medium Enterprise

Industry:
Consumer Services
