

It gave match more visibility for the entire network. We had small incidents like:

- Someone connected to a corporate file share and removed important information
 - We found out in a regular manner who downloaded all source information for one particular project to the flash drive for personal usage
 - We found out how many pornographic materials downloaded from one of our developers' team leads
 - We found out how many people still use corporate Internet for getting films from torrents
- Network Administrator, Medium Enterprise Computer Software Company
