3.5/5 Stars

How our organization uses Cisco Threat Response:

> " We use it to investigate issues. It is helpful for threat hunting in our environment and tracking down IoC's.

Would you recommend Cisco Threat Response?

> " Yes, as a way to centralize information from AMP for Endpoints, Cisco Umbrella, Threat Grid, and VirusTotal. Being able to get insights from all of those sources during an investigation is fantastic and a real time saver.
