

5/5 Stars

How our organization uses SecureX threat response:

For analyzing and remediating threats or possible threats. We have a small team and this helps us know what attacks are coming at us and efficiently analyze and remediate quickly as well as documenting the case for future reference

Would you recommend SecureX threat response?

Yes, it is a very effective threat management tool, easy to use and is very detailed to find any threats and block the incoming source and remediate all infected devices.
