

5/5 Stars

How our organization uses Cisco Threat Response:

“ The combined power of AMP for Endpoints, FirePower, and Umbrella allows me to view what threats have been seen in my environment and exactly how serious they are. I can then analyze if it has been seen elsewhere and where.

Would you recommend Cisco Threat Response?

“ The stream integration between Cisco Threat Response, AMP for endpoints, FirePower, and Umbrella allows me to spend less time tracking down where threats are at.
