Please describe the benefits that you realized from taking a Citrix training course or obtaining a certification.

“ I understand clearly how the product works, how to set it up and how to troubleshoot the product after finishing training

What would you tell to someone considering taking a Citrix training course?

“ If they are going to be supporting Citrix, I would recommend them to take this training because there is a lot to learn, and it would take days trying to figure it out on your own.
