

Global 500 Retail Company Increases Operational Efficiency by over 100% with Couchbase

Introduction

This case study of a Global 500 retail company is based on a July 2020 survey of Couchbase customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“Couchbase works very smoothly and it’s quite easy to use by the developers.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Couchbase:

- Experienced the following challenges prior to implementing Couchbase:
 - Poor database management
 - Having an expensive solution
 - Long development cycles due to inefficiencies
 - Scaling
 - Performance
- Evaluated the following vendors before choosing Couchbase:
 - MongoDB
 - Redis

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Global 500

Industry:
Retail

Use Case
