

5/5 Stars

Please describe how your organization uses Crisis Prevention Institute.

Since this is my first year as a CPI trainer, we worked on initial trainings with our administrative staff and refreshing staff that have already gone through the initial training. Our goal at our organization for the 2022-2023 year, is to help and support staff in deescalating behaviors within structured and unstructured settings. We feel it is beneficial for all staff to be trained and be able to deescalate a situation before someone goes into a crisis.

Would you recommend Crisis Prevention Institute, and if so, why?

I would highly recommend CPI for other organizations that work with the public. It would help a lot for not only you when it comes to situations where a person is escalating but also for others to help in those situations too.
