

5/5 Stars

Please describe how your organization uses Crisis Prevention Institute.

We conduct yearly trainings for current and new staff in the foundations course. We train additional staff based on roles using the autism program, and advanced physical skills. A great deal of the foundation of our mission, vision and school philosophy for our therapeutic school aligns closely with the CPI philosophies and way of thinking. We incorporate it as a state of mind and being not just a tool or resource for the extreme moments.
