

5/5 Stars

Please describe how your organization uses Crisis Prevention Institute.

Our school district uses Nonviolent Crisis Intervention training to train every paraprofessional, security guard , and administrator in our district. Although it is not mandatory for teachers, there are many special education teachers as well as those in the general education that have chosen to be trained so they can de-escalate students and appropriately respond to a crisis.

Would you recommend Crisis Prevention Institute, and if so, why?

I would highly recommend CPI to any educational or other facility! The training helps identify behaviors and provides a staff response for those behaviors. When a person is exhibiting risk behaviors, the training provides staff with options from least restrictive to most restrictive to provide for the care, welfare, safety, and security for ALL!
