

5/5 Stars

Please describe how your organization uses Crisis Prevention Institute.

At our small school we use the verbal more luckily at our site we have a smaller school and the kids are really good . So we haven't had to use any physical techniques we can usually stop it at the verbal. But it is good to be trained in all areas in case we have to use it. I know at other school sites in our district they have more kids and have had to use more of there training. The one problem I see is our district only trains those in the special education where in the past past we trained all staff. I think this is good for everyone students, teachers , secretaries everyone that works with the kids and even the staff to learn how to handle every situation we come across even keeping our attitude in check. And to work together as a team.

Would you recommend Crisis Prevention Institute, and if so, why?

Yes I would because I think it's a great program
