

School District U-46: Our Results With CPI

We have seen the number of fights and student-on-student conflict reduced. We have had staff report that the techniques have helped them with difficult situations. We have been able to gain consistency in the implementations to further reduce the growth of a crisis event. We have seen out-of-school suspensions reduced over 8 years by over 75% and expulsions for assault on staff reduced by over 60%.
