

4/5 Stars

Please describe how your organization uses Crisis Prevention Institute.

We use this alot in our behavioral department as well as on our floors. Sometimes people dont see that our inpatient units do get patients that come in in crisis or due to long stays (unable to find placement) have crisis moments while here.

Would you recommend Crisis Prevention Institute, and if so, why?

I absolutely would and DO recommend everyone become CPI trained just so they learn how to deal with these situations Safely, Effectively, Acceptably and be able to use it on any floor in any department in any situation.
