

4.5/5 Stars

Please describe how your organization uses Crisis Prevention Institute.

We are using Level 2, 3, and 4 in our organization. Our Medical Group will be using just the verbal component. We have started to expand our training to staff to include Verbal and Disengagements (Level 3). Our high risk areas have remained the same and will received the full training.

Would you recommend Crisis Prevention Institute, and if so, why?

I'd recommend CPI to other customers for the flexibility of the program (ie-SEAT). I feel it allows us to still be safe but apply principles to situations that do not follow a cookie cutter method. You can't force individuals in crisis to behave in a specific way and some programs are strict on what you can and can't do.
