

Space Age Electronics, Inc

Introduction

This case study of Space Age Electronics, Inc is based on an October 2022 survey of CrowdStrike customers by TechValidate, a 3rd-party research service.

“CrowdStrike is our sole-source security solution. We use the Falcon platform to protect all of our servers and endpoints and use Overwatch to make sure we are safe. ”

“Because we are using a single, centralized platform, the amount of work required to monitor and remediate security events is significantly reduced as it can be done any time from anywhere.”

“CrowdStrike is the best. I already recommend them whenever security comes up in conversation.”

Challenges

Which of the following represented the biggest security challenge(s) for your organization before implementing CrowdStrike?

- Existing security tools and products not meeting their needs and integrations
- Deployment of security keeping pace with company growth and expansion
- Facing increasingly advanced cyber threats (i.e. ransomware, identity-based attacks)
- Limited or insufficient amount of security professionals on staff to monitor 24x7

Why did you choose CrowdStrike over other solutions?

- For the simple, single-agent unified platform
- Because they are a proven security leader recognized by major analysts and best-in-class protection by independent testing
- Because it allows for automation of security controls via integrations with existing or other security tools
- For the human expertise and services
- For the world-class technology and intelligence

What other vendors did you consider before choosing CrowdStrike?

- Microsoft
- Malwarebytes
- Kaspersky

Use Case

What features of CrowdStrike are you using?

- Next Gen. Antivirus (Falcon Prevent)
- Endpoint Detection & Response (Falcon Insight)
- Threat Hunting (Falcon Overwatch)

Results

CrowdStrike security solutions compared to the competition:

- Performance: Best In Class
- Ease of use: Best In Class
- Reliability: Best In Class
- Scalability: Best In Class
- Breach Prevention: Best In Class

What benefits did your organization realize following the deployment of CrowdStrike?

- Improved the efficiency of our security operations
- Improved application quality
- They were able to find and shut down threats they had no prior knowledge of
- Delivered faster IT and security performance
- Improved data protection of critical information
- A greater ability to meet regulatory compliance standards

In your best estimate, by what percent did CrowdStrike improve the following?

- Reduce IT/Security Costs: 50-75%
- Reduce IT/Security Maintenance: 75-99%
- Reduce time spent tracking down and resolving security threats: 100% +

Electronics

About CrowdStrike

CrowdStrike (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world’s most advanced cloud-native platform for protecting critical areas of enterprise risk — endpoints and cloud workloads, identity and data. Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities. Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value. CrowdStrike: We stop breaches.
