**CROWDSTRIKE**

# HRP Associates, Inc.

## Introduction

This case study of HRP Associates, Inc. is based on an October 2022 survey of CrowdStrike customers by TechValidate, a 3rd-party research service.

> "Crowdstrike provides our primary endpoint protection and remediation as well as vulnerability management."
>
> "Once set up, Crowdstrike is much easier to maintain and generates far fewer false positives than prior solutions."
>
> "We have been very pleased with Crowdstrike as a security solution and would highly recommend it."

## Challenges

**Which of the following represented the biggest security challenge(s) for your organization before implementing CrowdStrike?**

- Facing increasingly advanced cyber threats (i.e. ransomware, identity-based attacks)
- Increased complexity and risk due to remote and/or hybrid workforce
- Limited or insufficient amount of security professionals on staff to monitor 24×7

**Why did you choose CrowdStrike over other solutions?**

- For the simple, single-agent unified platform
- Because they are a proven security leader recognized by major analysts and best-in-class protection by independent testing
- For the world-class technology and intelligence

**What other Vendors did you consider before choosing CrowdStrike?**

- SentinelOne
- VMWare

## Use Case

**What features of CrowdStrike are you using?**

- Next Gen. Antivirus (Falcon Prevent)
- Endpoint Detection & Response (Falcon Insight)
- Threat Intelligence (Falcon Intelligence)
- Threat Hunting (Falcon Overwatch)
- IT Hygiene (Falcon Discover)
- Falcon Spotlight

**Which cybersecurity topics are you interested in learning more about?**

- Cloud Security
- Identity Protection
- General security awareness and training

## Results

**CrowdStrike security solutions compared to the competition:**

- Performance: **Best In Class**
- Ease of use: **Better**
- Reliability: **Significantly Better**
- Scalability: **Better**
- Breach Prevention: **Best In Class**

**What benefits did your organization realize following the deployment of CrowdStrike?**

- Improved the efficiency of our security operations
- Delivered faster IT and security performance

**In your best estimate, by what percent did CrowdStrike improve the following?**

- Reduce IT/Security Costs: **1-25%**
- Reduce IT/Security Maintenance: **25-50%**
- Reduce time spent tracking down and resolving security threats: **50-75%**

### Company Profile

Company:
**HRP Associates, Inc.**

Company Size:
**Medium Enterprise**

Industry:
**Engineering**

### About CrowdStrike

CrowdStrike (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk — endpoints and cloud workloads, identity and data. Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities. Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value. CrowdStrike: We stop breaches.
