

Thales

Introduction

This case study of Thales is based on a May 2023 survey of CyberGRX customers by TechValidate, a 3rd-party research service.

“CyberGRX enables us to confidently and efficiently manage our risk posture and cyber reputation while supporting our customer relationships and business goals.

It is a useful tool. Having an online platform available to our customers is a great benefit.”

Challenges

What key pain points have you experienced prior to using CyberGRX?

- Too much time spent completing bespoke assessments
- Urgent and unplanned bespoke assessment requests for presale procurement
- A lack of program success metric data (time saves, acceptance rate on shares, etc.) or benchmarkable data to share with the C-suite and/or the Board
- A lack of control over cyber reputation and risk posture due to use of security ratings and outside-in scanning tools
- Too much time needed to address customer follow-up questions or requests post-assessment share
