

# Medium Enterprise Real Estate Company

## Introduction

This case study of a medium enterprise real estate company is based on a November 2021 survey of CyberGRX customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“CyberGRX is a modern approach to third-party cyber risk management that sees beyond assessments and workflows.”

## Challenges

The business challenges and key pain points that led the profiled company to evaluate and ultimately select CyberGRX:

- Procurement-focused third party process without security involvement
- Lack of visibility against current cyber threats involving third parties
- No benchmarkable data to share with C-suite and/or Board

## Use Case

The key features and functionalities of CyberGRX that the surveyed company uses:

- Assessing third party vendors as part of the procurement process
- Monitoring third parties as part of a compliance program
- Assessing third party cyber risk as part of the security process

## Results

The surveyed company achieved the following results with CyberGRX:

- Realized a return on their investment in CyberGRX in 3-6 months.
- They said that CyberGRX improved their ability to make informed decisions regarding third-party cyber risks by 51-75%.

They agree that the following features of CyberGRX are better than the competitive tools:

- Auto-Inherent Risk Ratings
- Framework Mapper
- Threat Profiles
- Third-Party Threat Intelligence Score

CyberGRX has been important in improving the surveyed company’s cybersecurity posture. They agree that CyberGRX’s threat profiles are integral to their day-to-day operations.
