DRFIRST CASE STUDY

Large Enterprise Healthcare Company

Introduction

This case study of a large enterprise healthcare company is based on a July 2021 survey of DrFirst customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

Challenges

This organization evaluated and ultimately selected Backline to improve:

- Electronic prescription failure notifications

Use Case

Inside the organization, Backline:

- Facilitates electronic prescription failure notifications

Key Features:

- Automated clinical notifications

Results

This organization uses Backline to coordinate care with the following:

- Primary care physicians

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Large Enterprise

Industry:
Healthcare
